

Remote Learning

When circumstances make it essential for pupils to work at home, we aim to make sure they continue to access education and learn. We strongly believe that it is important that they maintain a routine and take part in learning every day.

Google Classroom

Children will be able to log into their class using 'Google Classroom' and access the work set for them by their teacher using the link below:

<https://classroom.google.com/?pli=1>

Each child has their own personal username and password to access **Google Classroom**. Please keep this information safe and private. If your child is having problems logging into their classroom, please contact their teacher or use the guide below.
